1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 08/11/2005 has been entered.

2. The Examiner withdraws 35 U.S.C. 112, first paragraph rejection of previous claims 23-30, 35 U.S.C. 112, second paragraph rejection of previous claims 25-26, and prior art rejection of claims 23 and 25-30. However, latest amendment of claim 25 raises a new 35 U.S.C. 112, second paragraph rejection as follows.

3. Claims 25 and 26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 25, the terms "the concentration of the impurity" and "the contaminated apex" at lines 8-9 lack antecedent basis. These terms are not defined previously in the claim.

Art Unit: 2879

4. Claims 23 and 27-30 are in the condition for allowance since the specifically claimed feature of "concentration increasing" (claims 23 and 25) or the specifically claimed feature of "decreasing etch-resistible quality" (claim 27) are not disclosed or taught by any of the prior art references of the record.

5. Claim 25 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

6. Claim 26 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
